Summary

Full-Stack & Mobile Software Engineer with over three years of experience building production web and mobile platforms for healthcare, education, Hajj operations, and online marketplaces, mainly with Laravel, NestJS, Next.js, and React Native. Co-founder and sole engineer of Bishola, a car marketplace app with 50K+ downloads and a 4.4/5 rating on Google Play, owning everything from the backend and mobile apps to production deployment.

Professional Experience

Software Engineer (Laravel & Odoo & React.js & Vue.js) Mar 2026 – Present
Zimam Company — Makkah, Saudi Arabia (Remote)

- Contributed to the development of **Imtithal**, a compliance and evaluation platform for assessing pilgrim residences and camps prepared for the 1447 Hajj season.
- Contributed to **Zimam FMS**, a facility management platform built with Odoo and React, delivering full-stack features end to end, including a 3D BIM model viewer and the integration with the company's Odoo ERP.

Co-Founder & Lead Engineer (NestJS & Next.js & React Native) Jan 2025 – Present
Bishola — Syria (Remote)

- Co-founded **Bishola**, a car marketplace app with 50K+ downloads and a 4.4/5 rating on Google Play, and lead all of its engineering as the sole developer.
- Rebuilt the iOS and Android apps from scratch in React Native with full Arabic and English (RTL) support, relaunched them in June 2026, and have shipped 10+ releases since, adding push notifications, deep linking, search alerts, installment plans, and Google and Apple sign-in.
- Develop and maintain the NestJS REST API behind listings, search and filtering (including Arabic spelling normalization), alerts, authentication, and an AI assistant, along with the Next.js admin dashboard.
- Deployed and run production on a VPS using Docker and Nginx (reverse proxy, SSL/TLS), with CI/CD through GitHub Actions and shell scripts.

Full Stack Software Engineer (Laravel & React) Sep 2025 – Apr 2026
Progma Tech — Remote

- Developed and maintained production systems across healthcare automation, SaaS services, and tourism platforms.
- Built backend systems and administrative dashboards for **CBOT**, a hospital UVC robot management platform.
- Implemented booking, payment, and workflow features for **Misk Sens**, a service marketplace SaaS.
- Contributed to a multilingual (EN / AR) React-based admin dashboard for a tourism SaaS platform.

Full Stack Software Developer (Laravel & Next.js) Oct 2024 – Sep 2025
Progma Tech — Remote

- Contributed to **Taj Al-Quran**, a large-scale Learning Management System (LMS).
- Implemented user management, course structures, evaluations, and payment integrations.
- Developed the **Progma.tech** website with a custom admin CMS and SEO-ready architecture.

Software Developer Intern Jul 2023 – Sep 2023
NextRay AI Detection & Response Inc — Remote

- Assisted in frontend development using React.
- Built backend services using Spring Boot and REST APIs.
- Developed a real-time chat feature using WebSocket.

Projects

CBOT – Autonomous UVC Disinfection Platform (Healthcare)

- Backend platform for managing autonomous UVC disinfection robots in hospital environments.
- Implemented role-based access control, task tracking, and monitoring dashboards for hospital operations.

Misk Sens – SaaS Booking Platform

- Service booking and marketplace platform with integrated online payments.
- Implemented multi-booking (cart) support and booking lifecycle workflows.

Taj Al-Quran – Learning Management System (Backend)

- Backend development for a large-scale LMS platform built entirely with Laravel.
- Built user management, course structures, evaluation systems, and payment integrations.

Progma Official Website

- Developed the company's official website using Laravel (backend) and Next.js (frontend).
- Built a custom admin CMS for dynamic content management, SEO settings, and site configuration.

Technical Skills

Backend: Laravel, NestJS, PHP, Node.js, Odoo, TypeScript, REST APIs
Frontend: React, Next.js, Vue.js, Alpine.js, jQuery, Tailwind CSS
Mobile: React Native, iOS, Android, App Store and Google Play publishing
Databases: MySQL, PostgreSQL, MongoDB
Payments & Auth: Stripe, PayPal, MyFatoorah, RevenueCat, Role-Based Access Control
DevOps & Tools: Docker, Nginx, GitHub Actions, CI/CD, Linux, SSL/TLS, Git
Architecture: SaaS Design, MVC, Clean Code, Performance Optimization, Domain-Driven Design (DDD), Event-Driven Architecture (EDA)

Education

Bachelor of Software Engineering Sep 2019 – Jan 2025
Kırklareli University, Turkey

Languages

Arabic — Native
English — Full Professional Proficiency (B2)
Turkish — Professional Working Proficiency (C1)
